

## **Kilwinning Community Sports Club & Kilwinning Rangers FC Environmental Policy Statement**

Kilwinning Community Sports Club (KCSC), including Kilwinning Rangers FC, is an organisation specialising in sport, leisure and social inclusion. The Club takes a responsible and proactive interest in the environmental impact of its activities and is committed to contributing to environmental improvement and sustainable development across all operations.

KCSC aims to act with good practice in every project it undertakes—preserving, and where possible enhancing, the quality of the environment. When involved in the design, delivery or promotion of new developments, the Club considers environmental impact as a primary factor and works closely with its supply chain, partners and the wider community to ensure environmentally responsible solutions are adopted.

The Committee of Kilwinning Community Sports Club is committed to the continual improvement of environmental performance and the prevention of pollution. Appropriate environmental management systems will be adopted to fulfil statutory obligations and ensure full cooperation with relevant authorities.

The Environmental Policy is the direct responsibility of the Executive Committee, who will review the policy annually to ensure it remains relevant and effective. Environmental Management Representatives appointed by the Executive Committee will hold overall responsibility and authority for environmental matters within the organisation.

KCSC is committed to ensuring all operations comply with relevant environmental legislation, regulations, codes of practice, corporate directives and customer specifications. It is the Club's policy to operate in alignment with the ISO 14001 Environmental Management Standard.

---

### **Environmental Objectives**

Kilwinning Community Sports Club aims to:

- Produce annual environmental action plans with realistic, measurable and achievable targets.
- Monitor, review and update environmental plans each year.
- Use natural resources efficiently and take every opportunity to minimise waste through reduction, reuse and recycling.
- Reduce the impact of operational activities on the community, including noise, dust, disturbance and inconvenience.
- Actively involve employees, volunteers and partners in environmental initiatives and provide appropriate training to increase awareness and understanding of environmental issues.
- Communicate and consult with employees on environmental matters, ensuring the policy is understood and embraced at every level.
